

FEEL BETTER

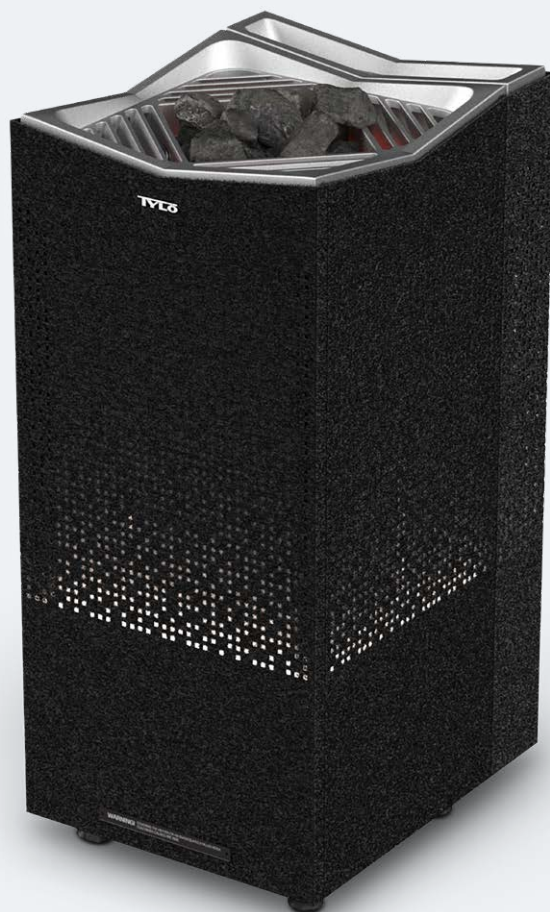

A softer feeling. A healthier everyday life. Experience a new level of wellbeing with Soft Sauna from Tylö.

TYLÖ
REDEFINING WELLNESS

Welcome to a new sauna experience

We love creating sauna solutions that blend tradition, innovation and wellbeing. With our Soft Sauna concept, we introduce a new level of relaxation – a sauna experience suitable for the entire family. This is where the classic dry sauna meets modern wellness in perfect harmony. Discover the health benefits of Soft Sauna from Tylö, and experience a stronger, more balanced version of yourself. Welcoming warmth awaits you.

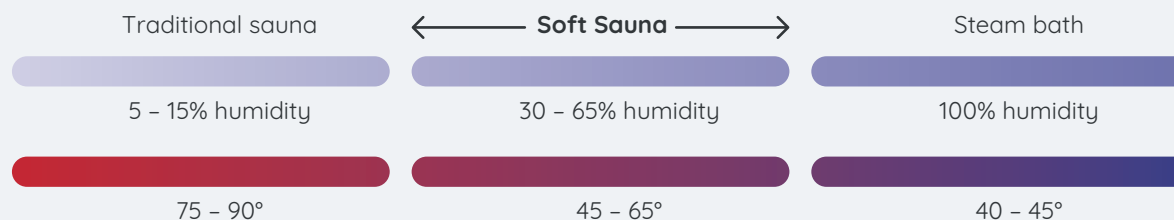

What is Soft Sauna?

It's the perfect balance between tradition and innovation

Soft Sauna is a sauna mode characterised by lower temperatures and higher humidity, creating a gentler and more pleasant warmth. It's ideal for anyone who finds the traditional sauna's high heat a bit too intense. Soft Sauna maintains a temperature of around 45–65°C. Combined with a humidity level of approximately 30–65%, it creates a mild and soothing sauna experience that suits both adults and children. This humid environment allows heat to transfer more efficiently to the body, resulting in a deeply relaxing session without the intensity of a dry sauna.

With a Tylö Combi heater, you can create a personalised sauna experience tailored to your needs and preferences.

A personal sauna experience

Customise your sauna

How do you want your sauna session to feel? Do you prefer it hot and dry, or do you enjoy a milder temperature and higher humidity?

To make it easier for you, we've developed a way to create a tailored sauna experience. Set your preferred temperature and steam level, and combine them just the way you like. With Tylo's innovative Combi heater, it's easy to adjust both heat and humidity to achieve the perfect balance. By combining heat and steam, you can shape a sauna climate that suits the whole family. You can also add essential oils like eucalyptus or citrus to enhance the experience even further.

Whether you want a short, intense session or a longer, more relaxing one, our Combi heaters are designed to deliver a tailored experience.

Health benefits from Soft Sauna

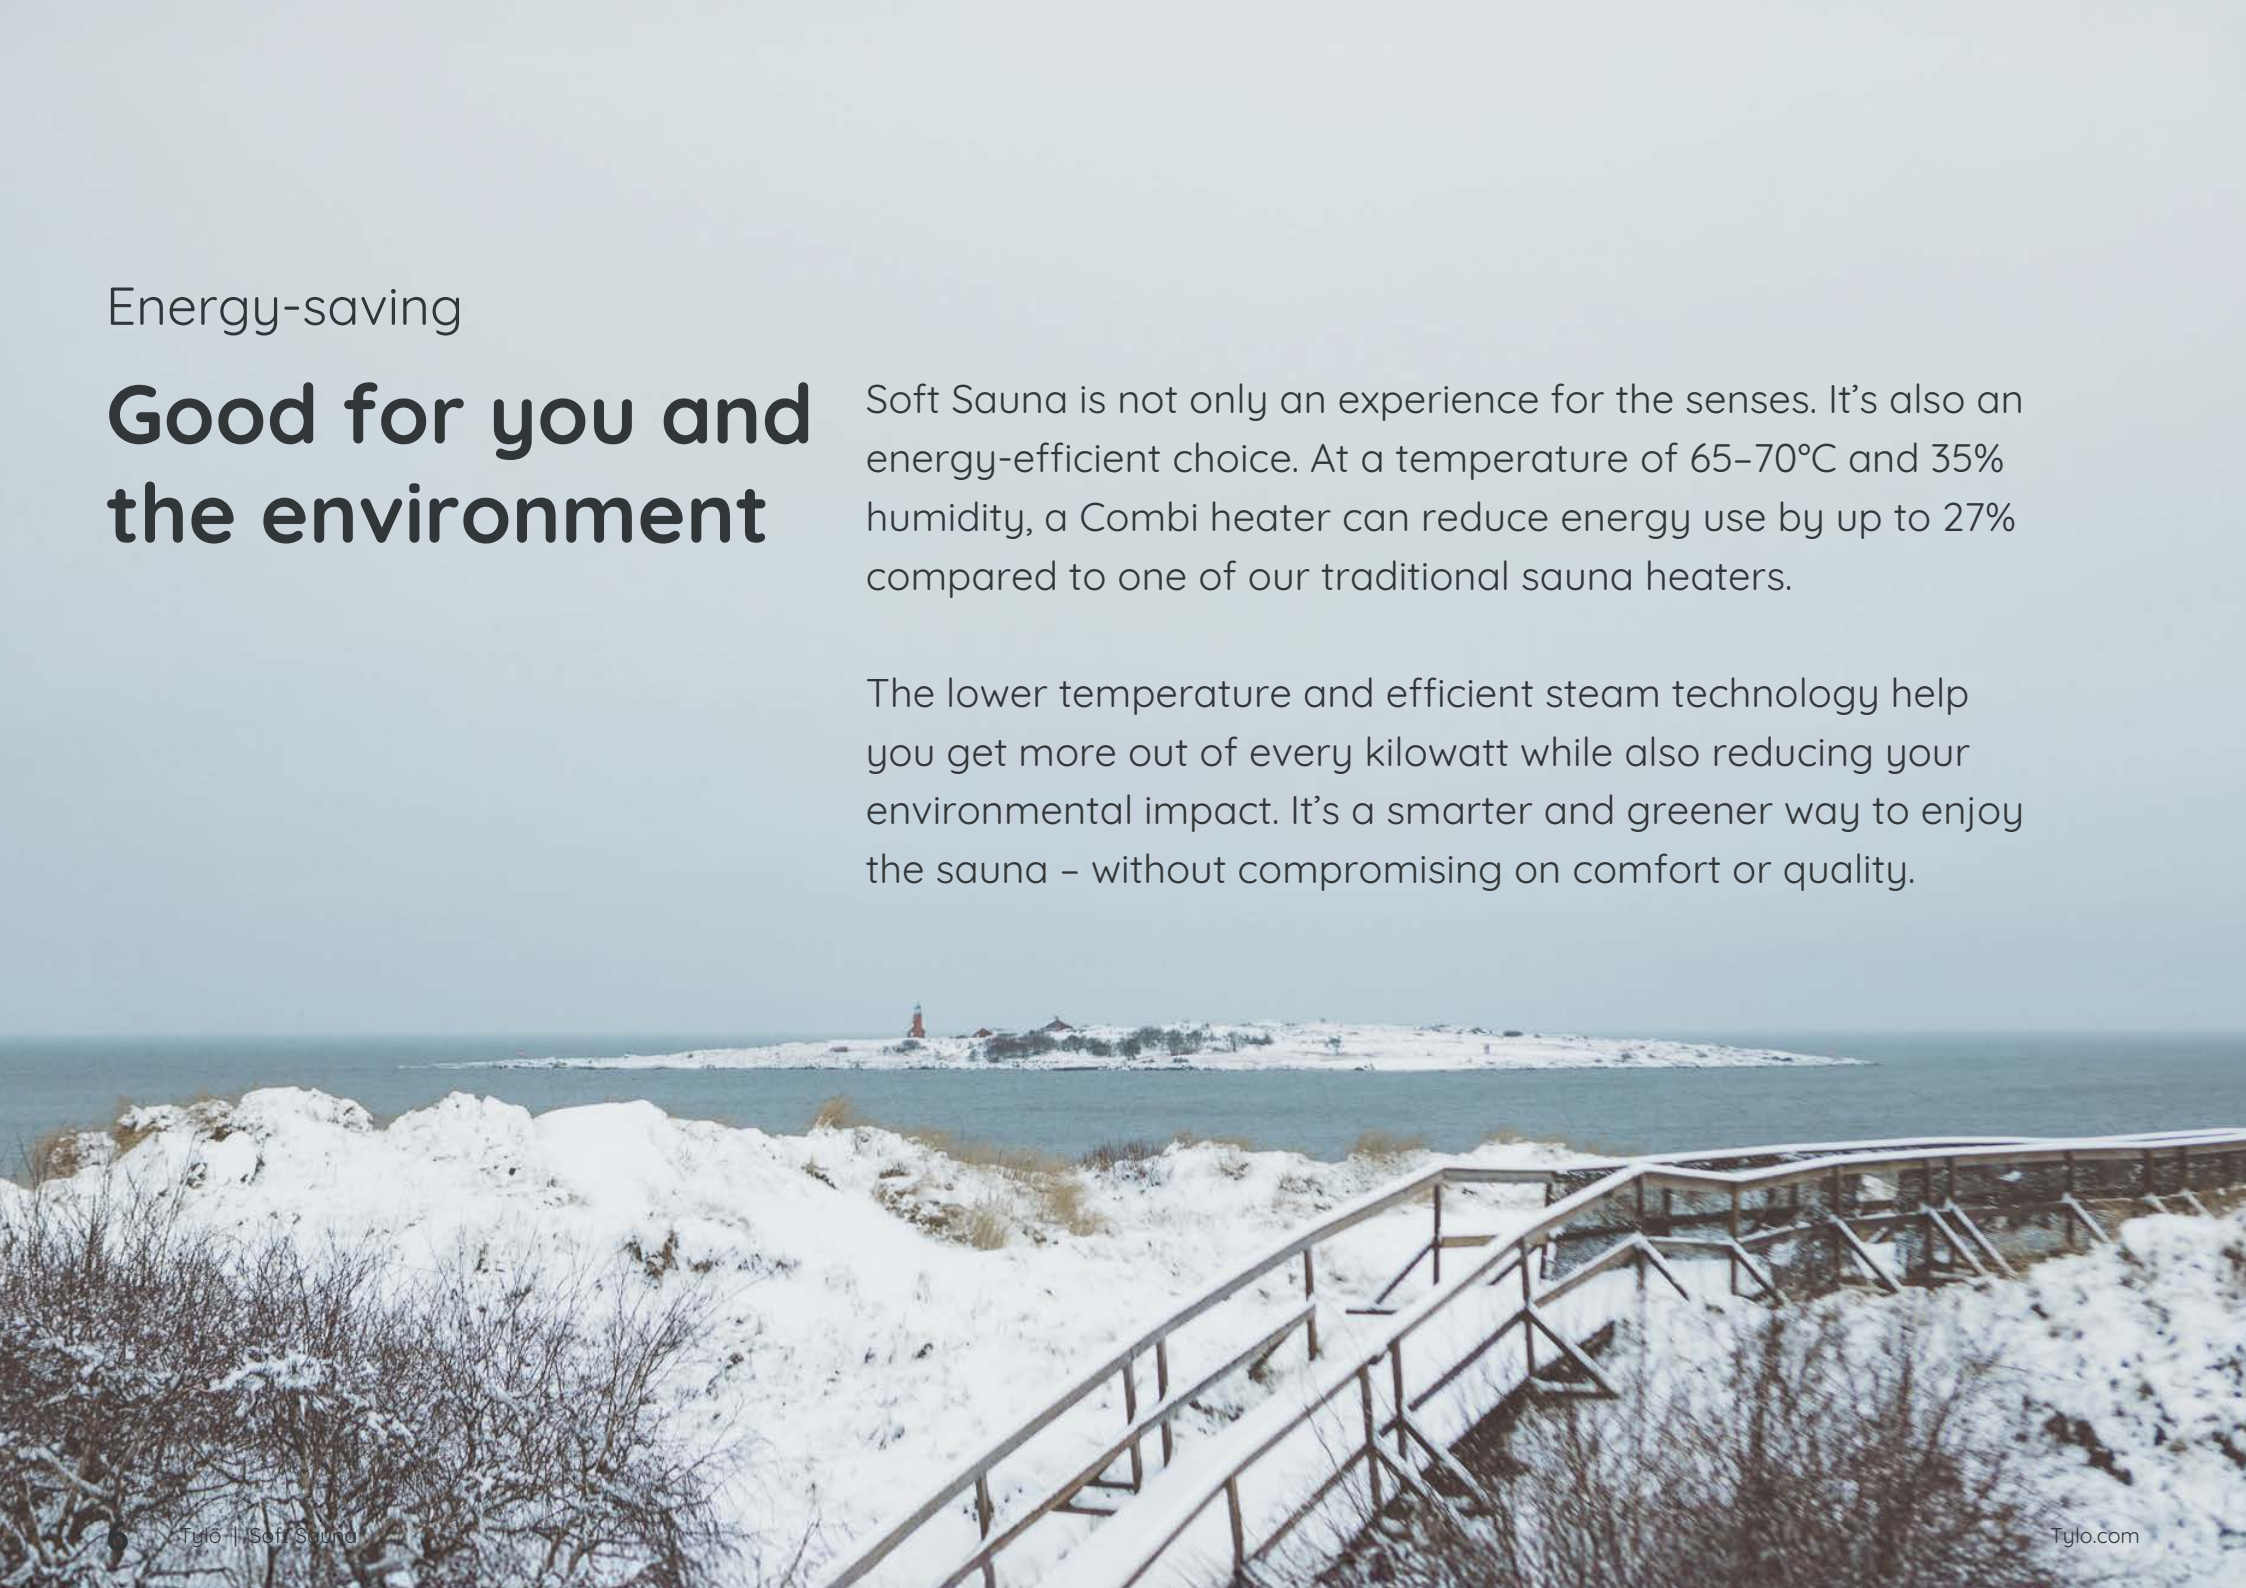

Wellbeing for the entire body

In a world full of stress and distractions, finding time to enhance the health of the whole family can be a challenge. Soft Sauna offers a moment to relax, connect and restore, free from screens. With a gentle balance of heat and humidity, it creates a sauna environment that suits both adults and children.

Soft Sauna also offers more than comfort. It may support overall wellbeing in several ways. Regular sauna sessions:

- **May support the immune system by encouraging healthy circulation and promoting the body's natural detox process through sweating**
- **May support restful sleep by lowering stress and helping the body relax**
- **Can enhance connection by creating a calm, shared environment where family time feels more meaningful**

Soft Sauna is also gentle on the body, making it ideal for people of all ages. The combination of mild warmth and higher humidity helps release tension, supports gentle muscle recovery and promotes a lasting sense of wellbeing.

Energy-saving

Good for you and the environment

Soft Sauna is not only an experience for the senses. It's also an energy-efficient choice. At a temperature of 65–70°C and 35% humidity, a Combi heater can reduce energy use by up to 27% compared to one of our traditional sauna heaters.

The lower temperature and efficient steam technology help you get more out of every kilowatt while also reducing your environmental impact. It's a smarter and greener way to enjoy the sauna – without compromising on comfort or quality.

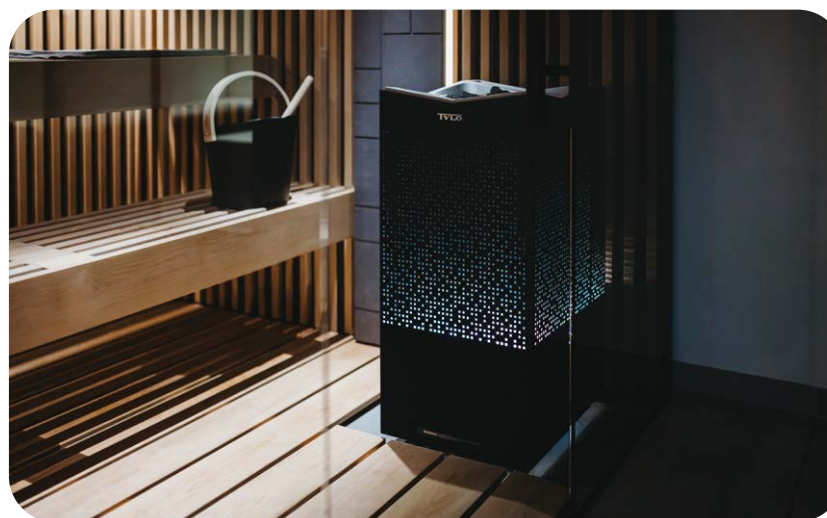

How Tylö's
Combi heater works

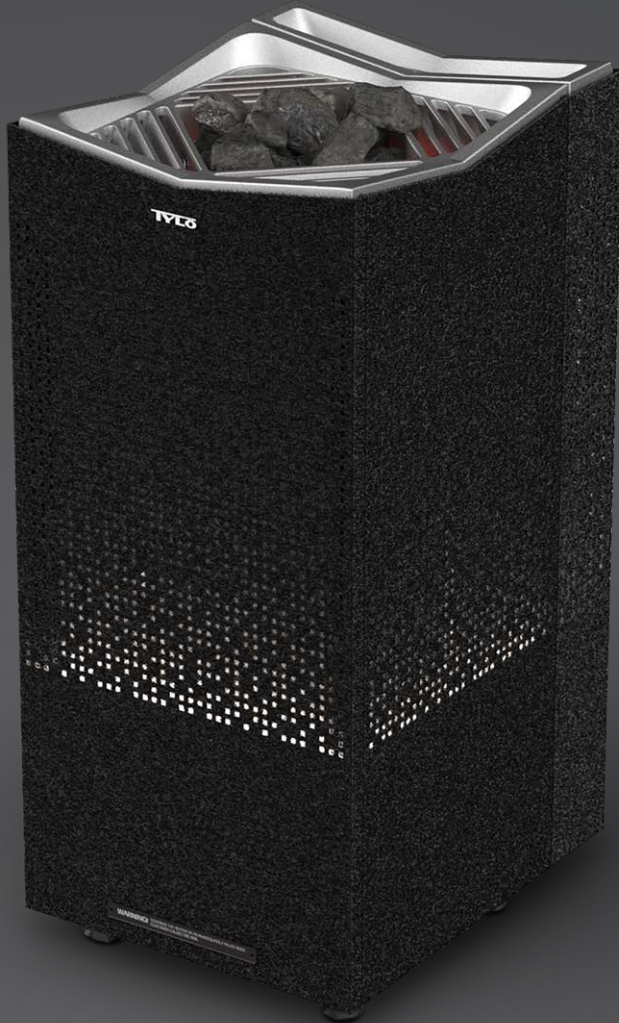

Technology that simplifies and enhances

A Combi heater combines traditional sauna technology with an integrated steam generator, making it easy to switch between a classic dry sauna and a gentler, more humid Soft Sauna. With fully adjustable settings, you can customise both temperature and humidity to create the sauna climate that suits you best.

The steam function delivers steady and consistent warmth, so there's no need to pour water over the stones – unless you want to, for that extra burst of heat. To ensure safe operation, the system is programmed so the combined value of temperature and humidity never exceeds 100 (for example, 70°C and 30% humidity).

Tylö's Combi heater also performs exceptionally well in saunas with glass or tiled walls, as the added humidity helps reduce the risk of surface cracking caused by prolonged dry heat.

Tylö Crown Combi

A royal sauna experience

The Tylö Crown Combi truly lives up to its name. With its majestic design and advanced features, this heater is a natural choice for anyone wanting the best of both dry and steam sauna experiences.

- Effect lighting that creates a calm and relaxing atmosphere.
- **IntelliAir:** a patented technology that optimises airflow in the sauna for better heat distribution, faster heating, and reduced energy consumption.
- **Split Output functionality:** lowers the heater's output once the desired temperature is reached, ensuring a more consistent heat.

With Crown Combi, you get more than just a sauna – you get a luxurious space for relaxation and wellbeing.

Tylö Sense Combi

Smart, efficient and flexible

Tylö Sense Combi is the ultimate choice for those seeking a sauna with versatility and modern functionality. With the ability to switch between traditional dry sauna and a gentler Soft Sauna, Sense Combi offers something for everyone – from relaxing steam to an intense sauna session.

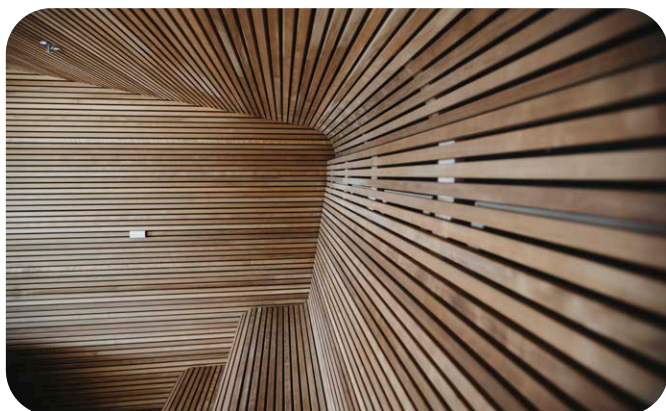

- **Steam function included:** for aroma and mineral treatments.
- **IntelliAir:** a patented technology that optimises airflow in the sauna for better heat distribution, faster heating and improved energy efficiency.
- **Split Output functionality:** lowers the heater's output once the set temperature is reached, ensuring more even and consistent heat.
- **Thermosafe protective coating:** prevents accidental burns by lowering surface temperature.

Sense Combi combines modern technology with clean Scandinavian design and advanced functionality. Whether you prefer a more intense heat or a gentler, more humid atmosphere, it's easy to tailor the sauna experience to suit your needs.

Accessories

Make your sauna experience more pleasant and more personal

Apart from world-class sauna heaters, we offer everything you need to create a sauna space you'll love to spend time in.

Complete sauna room

No matter your style, we offer complete sauna solutions crafted with care, combining solid materials, craftsmanship and attention to detail. Choose between modular, ready-to-install concepts or a fully tailored sauna room.

Control panels

Effortlessly manage your sauna with our intelligent control panels. The Pure panel stands for simplicity and functionality, while the Elite version offers cloud-based features and supports multiple user profiles.

Accessories

Match your interior design with accessories from Tylö. Whether your style is classic or modern, we have the accessories that will enhance your sauna – from buckets, ladles and scents to thermometers and lighting.

About Tylö

Tailored wellness experiences of the highest quality

A new definition of wellness

With a deep passion for sauna and wellness, rooted craftsmanship and profound expertise, Tylö redefines the sauna industry. We continue to create premium sauna products designed to be an essential part of a healthy lifestyle. When you invest in a Tylö product, you're not just investing in a product. You're investing in your health.

Development

Years of experience and an unwavering commitment to progress have shaped who we are today. We are experts in creating relaxation, year after year, for you and your wellbeing.

Sustainable products

Our heaters are equipped with IntelliAir, a system of built-in air chambers that efficiently distributes air and heat throughout the sauna. This ensures faster and more even heating. Our sauna rooms are well insulated to retain heat longer, helping to reduce energy consumption over time. Every solution is thoughtfully designed with care for both people and the planet.

Innovative design

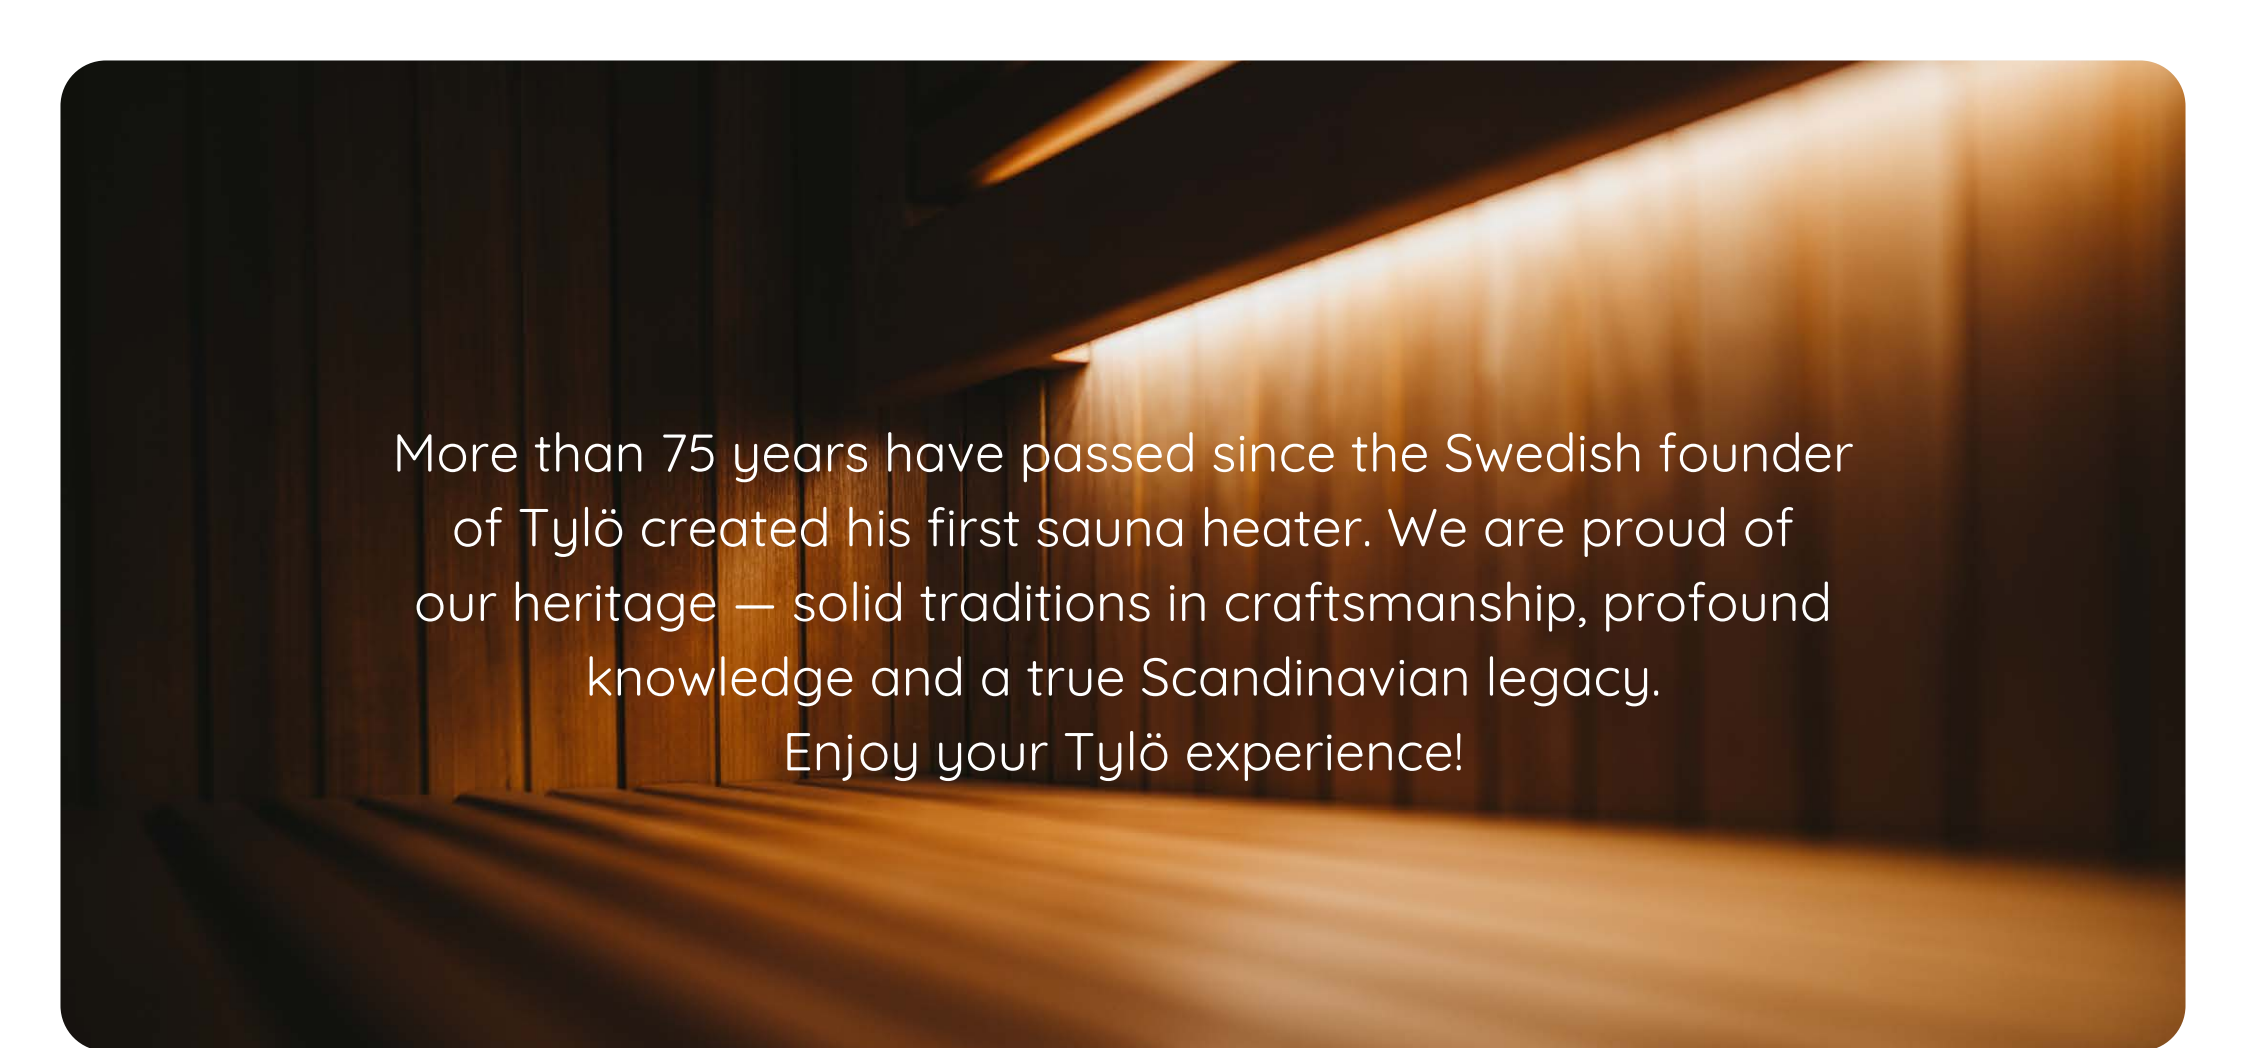

Tylö combines modern technology with innovative design to create unique sauna experiences. We offer prefabricated solutions as well as tailored design alternatives. Your complete partner in wellness with endless possibilities.

High quality

When you choose a Tylö product, you can trust that it has been made with exceptional care and attention to detail. Our commitment to quality is evident throughout our production process. From the selection of raw materials to the final inspection, we take pride in every step.

Made in Sweden

We are proud of our extraordinary craftsmanship and high-precision manufacturing at our Swedish factory. All our heaters and sauna rooms are crafted with care right here in Sweden.

More than 75 years have passed since the Swedish founder of Tylö created his first sauna heater. We are proud of our heritage — solid traditions in craftsmanship, profound knowledge and a true Scandinavian legacy.
Enjoy your Tylö experience!
