

# THE WARMTH --- OF STEAM

**TYLO**  
REDEFINING WELLNESS

# Welcome to the warmth of steam

For over 75 years, Tylö has created solutions that unite innovation, quality and Scandinavian design. Our steam experiences offer more than warmth. They invite recovery, a calming pause in a world of constant motion.

In the presence of steam, breathing deepens. Stress dissolves like droplets on your skin. As the warm mist embraces you from head to toe, the door to inner stillness opens. This is your moment: gentle, meditative and deeply restorative.

Step into a space where time softens and return renewed, with warmth that lingers.

The health benefits of steam

# Renewal of body and mind

A steam bath offers more than just a pleasant sensation. It's a natural way to unwind and support the body's recovery. Research shows that steam can benefit both body and mind. While the list of potential benefits is long, here are four of the most essential.

## 1. A natural way to relax

The warmth, calm and silence of a steam bath help the body slow down. Regular use may reduce cortisol levels, the body's primary stress hormone, and foster a deeper sense of calm.

## 2. Gentle cleansing for the skin

Steam stimulates perspiration, which helps release impurities from the skin. Many find their skin feels clearer, softer and more hydrated after a steam bath.

## 3. Boosts circulation and recovery

The mild heat of steam can increase blood flow, supporting the body's natural recovery and helping reduce muscle fatigue after physical activity.

## 4. Enhances the sense of wellbeing

A steam bath is more than a physical ritual. It's a chance to pause and reconnect. The enveloping warmth may promote clarity, renewed energy and a lasting sense of inner calm.

Whether you're seeking recovery or presence, steam invites you to slow down and restore balance. Quiet rituals that make a lasting difference – for body and mind.

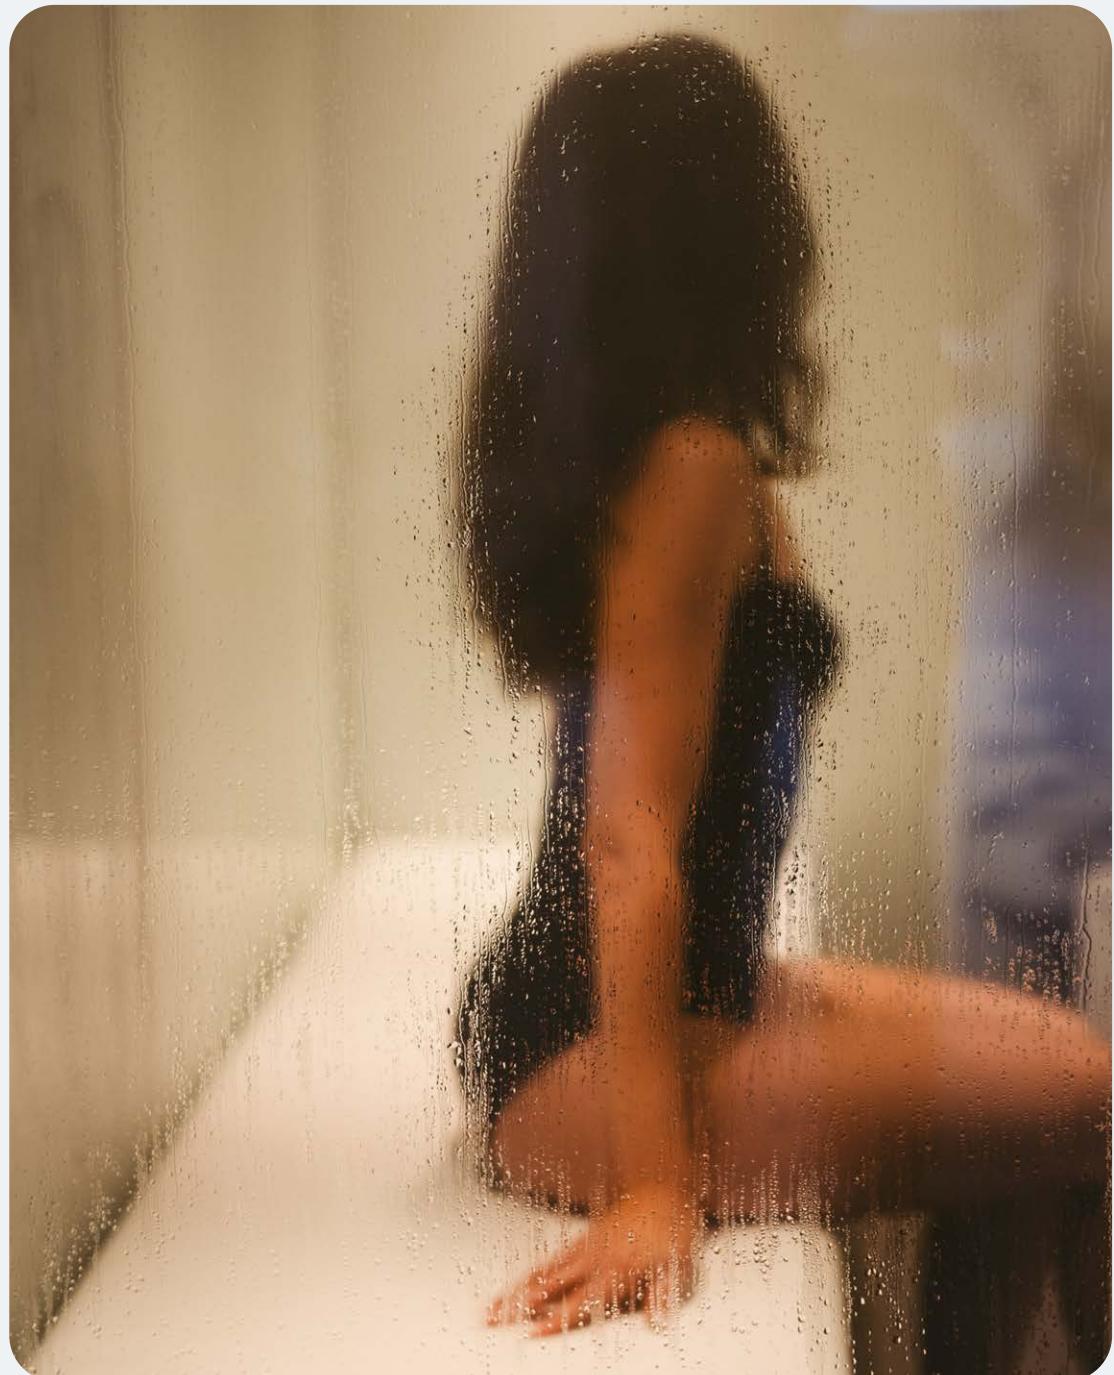

Steam room

## Mild steam and deep relaxation

A Tylö steam room offers a gentle, enveloping warmth designed to calm both body and mind. Instead of dry heat, you are surrounded by warm, dense steam that eases tension and creates a sense of lightness. With a temperature of 40–45 °C and a humidity level close to 100%, the experience is soothing and kind to the body.

Inside the steam room, water is heated in a steam generator and released as a soft, silent mist. There's no need to add water manually. The steam spreads naturally and evenly. The warmth is gentle and comforting, ideal for unwinding, clearing the mind and breathing more deeply.

Tylö Panacea

# Designed for your senses

Panacea is a complete steam room where form, function and relaxation come together in a refined, holistic concept. The warm steam surrounds the body and helps release tension, while adjustable lighting creates a calm and personal atmosphere. The backlit wall gives the room a distinct character, and tinted glass allows it to blend seamlessly into its surroundings.

- Comes in six sizes – from 1325 mm to 2525 mm wide
- Choose between several shades of tinted glass and backlit walls
- Supplied with or without a bench, depending on your needs
- Integrated lighting

Tylö Panacea Twin

# The best of both worlds

Steam or traditional sauna? With Panacea Twin, you don't have to choose. Tradition and steam are combined in a stylish solution, where the focus is on function and design.

The black-painted profiles and hardened safety glass create a clean and modern expression, while the insulated ceiling reduces heating time and minimises condensation. The traditional sauna meets the same high standards as our Harmony room, and is available with panels and interiors in different types of wood for a personal touch.

- **Stylish design with black-painted profiles and safety glass**
- **Insulated ceiling to reduce heating time and minimise condensation**
- **RGB-lit back wall for a calm, atmospheric experience**
- **Silent steam diffusion and specially designed floor frame**
- **Delivered complete with control panel, steam generator, fragrance pump and lighting**
- **Available in multiple sizes and finishes to suit different needs**

Customise your own steam room

# Four things to consider when building a steam room

## 1. Ensure that the steam generator matches the room size

Choose a generator powerful enough for the size of your steam room. We offer smart models suitable for both home and commercial use.

## 2. Plan for proper drainage

A steam room requires a floor drain to handle condensation. Install the generator with access to a drain, as both Steam Home and Steam Commercial automatically discharge remaining water after use.

## 3. Set maintenance intervals early

Test the hardness of your tap water to determine how often maintenance is needed.

## 4. Maintain commercial steam rooms regularly

In commercial settings, the steam generator must be descaled based on water quality and usage. We recommend using a Premier Compact water softener to reduce the need for descaling. The steam room should be rinsed daily in commercial environments.

Steam shower

# Modern design meets steam therapy

A Tylö steam shower blends advanced shower technology with the calm of steam therapy. Whether you choose an integrated steam column or a fully enclosed steam shower, the result is both aesthetic and functional. The warm steam surrounds the body, creating a sense of total relaxation. Ideal for softening muscles and slowing down.

With quick heat-up, reliable steam and timeless design, our steam showers are as much a part of the interior as they are a relaxing ritual.

## Steam Shower Stella

# Elegant and relaxing

Enjoy everyday luxury with the Stella steam column. Made from 8 mm black hardened glass and fitted with integrated neon-LED lighting, it adds a sophisticated touch to your bathroom.

- Produces steam within 2 minutes
- Controlled via Elite Cloud panel
- Available in black, chrome and brass
- Silent steam nozzle
- Integrated fragrance bowl

## Steam Vista Stylish and flexible

Our Vista steam showers combine Scandinavian design with gentle steam relaxation. Designed for corner placement and available in two versions: a compact single model with smoked glass on one side, and a more spacious double model with smoked glass on both sides.

Both feature matt black, minimalist profiles that bring a graphic, high-end feel to the bathroom. With a rain shower in the ceiling, hand shower on the column and silent steam release, Vista offers an ultimate steam shower experience, regardless of size. Add a matching Pixel stool and shelf in matt black to complete the look.

- Available in two variants - single or double
- Produces steam within 2 minutes
- Controlled via Elite Cloud panel
- Integrated fragrance compartment
- Silent steam diffusion
- RGB lighting and spotlights available as options

## About Tylö

# High quality customised wellness experiences

### A new definition of wellness

With a deep passion for sauna and wellness, rooted craftsmanship and profound expertise, Tylö redefines the sauna industry. We continue to create premium sauna products designed to be an essential part of a healthy lifestyle. When you invest in a Tylö product, you're not just investing in a product. You're investing in your health.

### Development

Years of experience and an unwavering commitment to progress have shaped who we are today. We are experts in creating relaxation, year after year, for you and your wellbeing.

### Sustainable products

Our heaters are equipped with IntelliAir, a system of built-in air chambers that efficiently distributes air and heat throughout the sauna. This ensures faster and more even heating. Our sauna rooms are well insulated to retain heat longer, helping to reduce energy consumption over time. Every solution is thoughtfully designed with care for both people and the planet.

### Innovative design

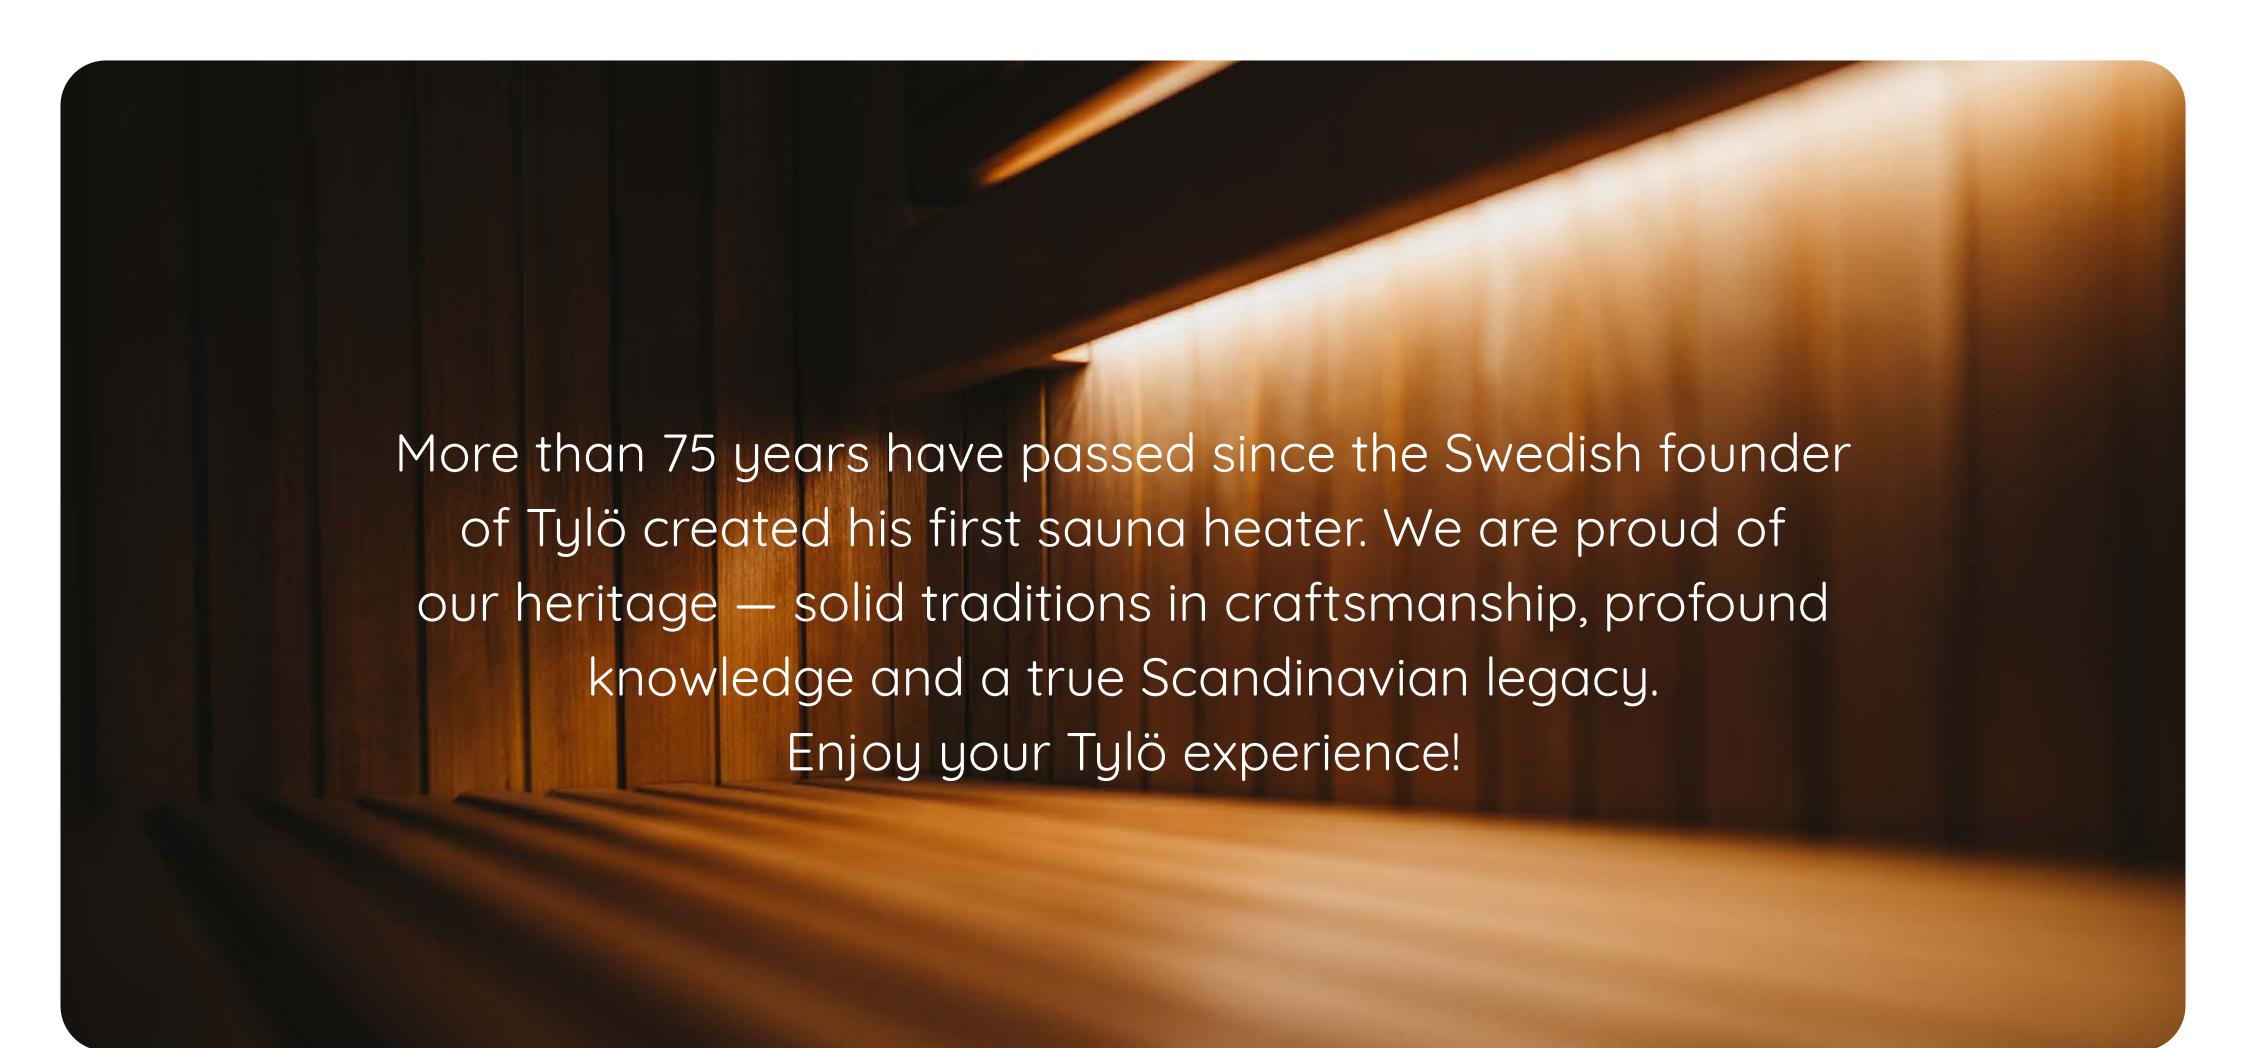

Tylö combines modern technology with innovative design to create unique sauna experiences. We offer prefabricated solutions as well as tailored design alternatives. Your complete partner in wellness with endless possibilities.

### High quality

When you choose a Tylö product, you can trust that it has been made with exceptional care and attention to detail. Our commitment to quality is evident throughout our production process. From the selection of raw materials to the final inspection, we take pride in every step.

### Made in Sweden

We are proud of our extraordinary craftsmanship and high-precision manufacturing at our Swedish factory. All our heaters and sauna rooms are crafted with care right here in Sweden.

More than 75 years have passed since the Swedish founder of Tylö created his first sauna heater. We are proud of our heritage – solid traditions in craftsmanship, profound knowledge and a true Scandinavian legacy.  
Enjoy your Tylö experience!
